SAFETY DATA SHEET

1. PRODUCT & COMPANY IDENTIFICATION

1.1 Product Name: PREVENT® NON-VOC FORMULA

1.2 Chemical Name: Petroleum Distillate

1.3 Synonyms: 45119, 45116

1.4 Trade Names: Prevent® Non-VOC Formula

1.5 Product Use: Lubricate, Penetrate, Displace Water, Protect Surfaces from Corrosion

1.6 Distributor’s Name: Precision Brand Products, Inc.

1.7 Distributor’s Address: 2250 Curtiss Street, Downers Grove IL 60515 USA

1.8 Emergency Phone: ChemTrec +1 (800) 424-9300 / +1 (703) 527-3887 or Poison Control Center +1 (855) 281-1742

1.9 Business Phone / Fax: +1 (630) 969-7200 / +1 (630) 969-0310

2. HAZARDS IDENTIFICATION

2.1 Hazard Identification:

This product is classified as a hazardous substance but not as dangerous goods according to the classification criteria of [NOHSC: 1088 (2004)] and ADG Code (Australia).

DANGER! MAY BE FATAL IF SWALLOWED AND ENTERS AIRWAY. MAY CAUSE AN ALLERGIC SKIN REACTION.

Classification: Asp. 1; Sens. Skin 1B

2.2 Label Elements:

Hazard Statements (H): H304 – May be fatal if swallowed and enters airways. H317 – May cause an allergic skin reaction.

2.3 Other Warnings:

In the event of an exposure or medical inquiry involving this product, please contact a physician or local poison control center, who may seek advice from the U.S. manufacturer, and show them this SDS. Keep out of reach of children.

4. FIRST AID MEASURES

4.1 First Aid:

Ingestion: DO NOT INDUCE VOMITING. Contact SafetyCall +1 (855) 281-1742 or the nearest Poison Control Center or local emergency telephone number for assistance and instructions. Seek immediate medical attention. If vomiting occurs spontaneously, keep victim’s head lowered (forward) to reduce the risk of aspiration.

If product gets in the eyes, flush eyes thoroughly with copious amounts of water for at least 15 minutes, holding eyelid(s) open to ensure complete flushing. If the eyes or face become swollen during or following use, consult a physician or emergency room immediately.

Skin: Remove contaminated clothing and wash affected areas with soap and water. If discomfort persists and/or the skin reaction worsens, contact a physician immediately. Do not wear contaminated clothing until after it has been properly cleaned.

Inhalation: Remove victim to fresh air at once. Under extreme conditions, if breathing stops, perform artificial respiration. Seek immediate medical attention.

4.2 Effects of Exposure:

Ingestion: Irritation upon direct contact.

Skin: Irritation and possible dermatitis.

Inhalation: Irritation to the gastrointestinal tract. Aspiration of mineral oil into the lungs can cause chemical pneumonia.

Inhalation of high vapor concentrations may cause central nervous system effects, and symptoms such as headache, dizziness, and disorientation.
4. FIRST AID MEASURES – cont’d

4.3 Symptoms of Overexposure:  
**Eyes:** Redness, burning, irritation, and swelling around eyes.  
**Skin:** Redness, burning, itching, rash, and scaling of the skin (dermatitis).  
**Ingestion:** Nausea, vomiting, severe abdominal pain.  
**Inhalation:** Coughing, wheezing, swelling of throat, irritation in mucous membranes, difficulty breathing.

4.4 Acute Health Effects:  
May be fatal if swallowed and enters airways. May cause an allergic skin reaction. May be harmful if swallowed. Breathing of high vapor concentrations may cause headaches, stupor, irritation of throat and eyes, and kidney effects.

4.5 Chronic Health Effects:  
May damage the nervous system, kidney and/or liver.

4.6 Target Organs:  
Eyes, skin, lungs.

4.7 Medical Conditions Aggravated by Exposure:  
Persons with pre-existing central nervous system (CNS) disease, neurological conditions, skin disorders, chronic respiratory diseases, or impaired liver or kidney function should avoid exposure.

5. FIREFIGHTING MEASURES

5.1 Fire & Explosion Hazards:  
High heat will cause product to boil, evolving vapor that could cause explosive rupture of closed containers. Avoid all ignition sources such as sparks, heat and open flames. Product or residue can ignite explosively.

5.2 Extinguishing Methods:  
Carbon dioxide, foam, low velocity water fog, Halon (if permitted), dry chemical extinguisher.

5.3 Firefighting Procedures:  
As with any fire, firefighters should wear appropriate protective equipment including a MSHA/NIOSH approved or equivalent self-contained breathing apparatus (SCBA) and protective clothing. Treat as hot oil. Hazardous decomposition products may be released. Thermal degradation may produce oxides of carbon, and/or nitrogen, hydrocarbons and/or derivatives. Fire should be fought from a safe distance. Keep containers cool until well after the fire is out. Use water spray to cool fire-exposed surfaces and to protect personal. Fight fire upwind. Prevent runoff from fire control or dilution from entering sewers, drains, drinking water supply, or any natural waterway.

6. ACCIDENTAL RELEASE MEASURES

6.1 Spills:  
Before cleaning any spill or leak, individuals involved in spill cleanup must wear appropriate Personal Protective Equipment (PPE). Use safety glasses or safety goggles and face shield; use gloves and other protective clothing (e.g., apron, boots, etc.) to prevent skin contact.  
**Small Spills:** Wear appropriate protective equipment including gloves and protective eyewear. Use a non-combustible, inert material such as vermiculite or sand to soak up the product and place into a container for later disposal.  
**Large Spills:** Keep incompatible materials (e.g., organics such as oil) away from spill. Stay upwind and away from spill or release. Isolate immediate hazard area and keep unauthorized personnel out of area. Stop spill or release if it can be done with minimal risk. Use ONLY non-sparking tools. Wear appropriate protective equipment including respiratory protection as conditions warrant. Recover as much free liquid as possible and collect in acid-resistant container. Use absorbent to pick up residue. Avoid discharging liquid directly into a sewer or surface waters.

7. HANDLING & STORAGE INFORMATION

7.1 Work & Hygiene Practices:  
Avoid breathing mists or spray. Avoid eye and skin contact. Wear protective equipment when handling product. Keep out of the reach of children. Do not eat, drink or smoke when handling this product. Wash thoroughly after handling. Do not expose to heat and flame. Use only in ventilated areas. Immediately clean-up and decontaminate any spills or residues.

7.2 Storage & Handling:  
Use and store in a cool, dry, well-ventilated location (e.g., local exhaust ventilation), fans away from heat and direct sunlight. Store in closed containers. Avoid temperatures above 40°C (120°F). Keep away from incompatible substances (see Section 10). Protect containers from physical damage.

7.3 Special Precautions:  
Empty containers may retain hazardous product residues.

8. EXPOSURE CONTROLS & PERSONAL PROTECTION

8.1 Exposure Limits:

8.2 Ventilation & Engineering Controls:  
Use local or general exhaust ventilation to effectively remove and prevent buildup of vapors or mist generated from the handling of this product. Ensure appropriate decontamination equipment is available (e.g., sink, safety shower, eye-wash station).

8.3 Respiratory Protection:  
In instances where vapors or sprays of this product are generated, and respiratory protection is needed, use only protection authorized by 29 CFR §1910.134, applicable U.S. State regulations, or the Canadian CAS Standard Z94.4-93 and applicable standards of Canadian Provinces, EC member States, or Australia.
8. EXPOSURE CONTROLS & PERSONAL PROTECTION – cont’d

8.4 Eye Protection: Safety glasses with side shields must be used when handling or using this product. A protective face shield is also recommended.

8.5 Hand Protection: Wear protective, chemical-resistant gloves (e.g., neoprene) when using or handling this product.

8.6 Body Protection: Not required under normal conditions of use. A chemical resistant apron and/or protective clothing are recommended when handling or using large quantities (e.g., > 5 gallons (18.9 L)) of this product.

9. PHYSICAL & CHEMICAL PROPERTIES

9.1 Appearance: Opaque, light brown liquid
9.2 Odor: Kerosene odor
9.3 Odor Threshold: NA
9.4 pH: NA
9.5 Melting Point/Freezing Point: NA
9.6 Initial Boiling Point/Boiling Range: > 110 °C (> 230 °F)
9.7 Flashpoint: 120 °C (248 °F), open cup
9.8 Upper/Lower Flammability Limits: LEL: NA; UEL: NA
9.9 Vapor Pressure: NA
9.10 Vapor Density: > 1.0 (air = 1.0)
9.11 Relative Density: 0.8057
9.12 Solubility: Immiscible (water)
9.13 Partition Coefficient (log P<sub>ow</sub>): NA
9.14 Autoignition Temperature: NA
9.15 Decomposition Temperature: NA
9.16 Viscosity: NA
9.17 Other Information: Evaporation Rate: < 1.0 (ethyl ether = 1.0); VOC: 0.2 lbs/gallon

10. STABILITY & REACTIVITY

10.1 Stability: Stable under normal storage and use conditions.
10.2 Hazardous Decomposition Products: Thermal decomposition may produce carbon and nitrogen oxides, hydrocarbons and/or derivatives.
10.3 Hazardous Polymerization: Will not occur.
10.4 Conditions to Avoid: Avoid high temperatures, ignition sources and incompatible materials.
10.5 Incompatible Substances: Strong reducing agents, acids, alkalis, oxidizing agents.

11. TOXICOLOGICAL INFORMATION

11.1 Routes of Entry: Inhalation: YES Absorption: YES Ingestion: YES
11.2 Toxicity Data: Severely Hydrotreated Naphtenic Petroleum Oil (Mineral Oil): LD50 (oral, rat) > 5,000 mg/kg
11.3 Acute Toxicity: See Section 4.4
11.4 Chronic Toxicity: See Section 4.5
11.5 Suspected Carcinogen: IARC 3 (not classifiable as to carcinogenicity in humans (for mineral oils, highly refined))
11.6 Reproductive Toxicity: This product is not reported to cause reproductive toxicity in humans.
11.7 Irritation of Product: See Section 4.2
11.8 Biological Exposure Indices: NE
11.9 Physician Recommendations: Treat symptomatically.

12. ECOLOGICAL INFORMATION

12.1 Environmental Stability: This product is expected to have a low potential to degrade and thus is expected to persist in the environment. Do not allow to enter into soil/subsoil. If product enters soil, it will be mobile and may contaminate groundwater.
12.2 Effects on Plants & Animals: No data available.
12.3 Effects on Aquatic Life: No data available.

13. DISPOSAL CONSIDERATIONS

13.1 Waste Disposal: Review current local, state and federal laws, codes, statutes and regulations to determine current status and appropriate disposal method for the ingredients listed in Section 2. Any disposal practice must be in compliance with local, state, and federal laws and regulations. Contact the appropriate agency for specific information. Treatment, transport, storage and disposal of hazardous waste must be provided by a licensed facility or waste hauler.

13.2 Special Considerations: If incinerated, the resulting ash will contain extractable barium. A waste with extractable barium of 100 ppm or greater is assigned EPA Hazardous Waste Number D005 (Toxicity Characteristic – Barium).
14. TRANSPORTATION INFORMATION

The basic description (ID Number, proper shipping name, hazard class & division, packing group) is shown for each mode of transportation. Additional descriptive information may be required by 49 CFR, IATA/ICAO, IMDG and the CTDGR.

14.1 49 CFR (GND): NOT REGULATED
14.2 IATA (AIR): NOT REGULATED
14.3 IMDG (GND): NOT REGULATED
14.4 TDGR (Canadian GND): NOT REGULATED
14.5 ADR/RID (EU): NOT REGULATED
14.6 SCT (MEXICO): NOT REGULATED
14.7 ADGR (AUS): NOT REGULATED

15. REGULATORY INFORMATION

15.1 SARA Reporting Requirements: This product does not contain any substances subject to SARA Title III, section 313 reporting requirements.
15.2 SARA TPQ: NA
15.3 TSCA Inventory Status: The components of this product are listed on the TSCA Inventory.
15.4 CERCLA Reportable Quantity: NA
15.5 Other Federal Requirements: NA
15.6 Other Canadian Regulations: This product has been classified according to the hazard criteria of the CPR and the MSDS contains all of the information required by the CPR. The components of this product are listed on the DSL/NDSL. None of the components of this product are listed on the Priorities Substances List, WHMIS Class D2B (Materials Causing Other Toxic Effects).
15.7 State Regulatory Information: Severely Hydrotreated Naphthenic Petroleum Oil (Mineral Oil) is found on the following state criteria lists: New Jersey Right-to-Know List (NJ), and Pennsylvania Right-to-Know List (PA). No other ingredients in this product, present in a concentration of 1.0% or greater, are listed on any of the following state criteria lists: California Proposition 65 (CA 65), Delaware Air Quality Management List (DE), Florida Toxic Substances List (FL), Massachusetts Hazardous Substances List (MA), Michigan Critical Substances List (MI), Minnesota Hazardous Substances List (MN), New Jersey Right-to-Know List (NJ), New York Hazardous Substances List (NY), Pennsylvania Right-to-Know List (PA), Washington Permissible Exposures List (WA), Wisconsin Hazardous Substances List (WI).
15.8 Other Requirements: NA

16. OTHER INFORMATION

16.1 Other Information: DANGER! MAY BE FATAL IF SWALLOWED AND ENTERS AIRWAY. MAY CAUSE AN ALLERGIC SKIN REACTION. Wear protective gloves/eye protection. If swallowed, immediately call a Poison Center or doctor/physician. Avoid breathing mist/sprays. If skin irritation or rash occurs: Get medical advice/attention. Store in a cool, well-ventilated place. KEEP LOCKED UP AND OUT OF REACH OF CHILDREN.
16.2 Terms & Definitions: See last page of this Safety Data Sheet.
16.3 Disclaimer: This Safety Data Sheet is offered pursuant to OSHA’s Hazard Communication Standard, 29 CFR §1910.1200. Other government regulations must be reviewed for applicability to this product. To the best of ShipMate’s & Precision Brand Products, Inc.’s knowledge, the information contained herein is reliable and accurate as of this date; however, accuracy, suitability or completeness is not guaranteed and no warranties of any type, either expressed or implied, are provided. The information contained herein relates only to the specific product(s). If this product(s) is combined with other materials, all component properties must be considered. Data may be changed from time to time. Be sure to consult the latest edition.
